

Improving Outcomes for Children and Young People: Evaluating Service Provision

Regional Seminar
25th May 2006, Best Western Monkbar Hotel, York

Following the success of the TEN/Confed/VSC national conference “Using the five outcomes to raise standards” in Newcastle on October 11th 2005 we are pleased to announce a regional seminar which will enable Local Authority/Health/Voluntary agency colleagues to explore current developments and emerging practice in more depth. This event, managed by the VSC on behalf of the CSN/Confed/VSC partnership, will be limited to 50 delegates in order to facilitate interactive small group sessions and the provide opportunities for participants to share innovative practice with service improvement colleagues.

The presentation style will be interactive with significant opportunities for sharing good practice and professional reflection through group work and experiential “swap shops”. In this spirit, it is hoped that all participants will come prepared to actively contribute as well as listen.
